#### **Origins and Evolution: The Seeds of Blues Poetry**

The roots of blues poetry lie deep in the African American experience and the cultural tapestry of the Deep South. Work songs, spirituals, and field hollers echoed through the cotton fields, carrying the weight of history and oppression. These early expressions of collective experience laid the foundation for the emergence of blues poetry in the early 20th century.

As blues music gained popularity in the 1920s and 1930s, poets such as Sterling Brown, Langston Hughes, and Margaret Walker began to incorporate blues elements into their work. They fused the raw emotion and lyrical simplicity of the blues with the literary traditions of poetry, creating a new and distinct genre.
