

# Endeavour Ark Royal 18: The Ship That Changed Naval Warfare

The Endeavour Ark Royal 18 was a first-rate ship of the line of the Royal Navy, launched in 1587. She was the largest and most powerful warship in the world at the time, and her design revolutionized naval warfare. The Ark Royal was armed with 80 guns and had a crew of over 500 men. She was the flagship of the English fleet during the Spanish Armada in 1588, and played a major role in the defeat of the Spanish invasion.

## Design

The Ark Royal was designed by the master shipwright Matthew Baker. She was 165 feet long and 46 feet wide, with a displacement of 1,000 tons. Her hull was made of oak, and her masts were made of pine. The Ark Royal was armed with a variety of guns, including culverins, demi-culverins, and sakers. She also had four forecastles, which were used to mount additional guns.

The Ark Royal was a very fast ship for her time. She could sail at speeds of up to 10 knots, which was much faster than most other warships. This speed gave her a significant advantage in battle, as she could outmaneuver her opponents and attack them from unexpected angles.

## **History**

The Ark Royal was launched in 1587 and immediately became the flagship of the English fleet. She served in this role for over 20 years, and was involved in many of the major naval battles of the period. In 1588, the Ark Royal was the flagship of Lord Howard of Effingham during the Spanish Armada. She played a major role in the defeat of the Spanish invasion, and was credited with sinking several Spanish ships.

The Ark Royal was also involved in the Battle of Cadiz in 1596, and the Battle of the Isle of Wight in 1597. She was decommissioned in 1608 and broken up in 1634.

## **Impact**

The Endeavour Ark Royal 18 had a profound impact on naval warfare. Her design revolutionized the way that ships were built and armed, and her speed and maneuverability gave her a significant advantage in battle. The Ark Royal was the first ship to be armed with a large number of guns, and her design set the standard for future warships.

The Ark Royal also played a major role in the defeat of the Spanish Armada. Her speed and maneuverability allowed her to outmaneuver the Spanish ships and attack them from unexpected angles. This helped to break the Spanish formation and led to the eventual defeat of the Armada.

The Endeavour Ark Royal 18 was a truly revolutionary ship. Her design and armament changed the course of naval warfare, and she played a major role in the defeat of the Spanish Armada. The Ark Royal is a testament to the ingenuity and skill of the English shipbuilders, and her legacy continues to this day.
