Step 1: Understand the 5th Position Frets

The 5th position frets are located five frets up from the nut. This means that the first fret in the 5th position is the 5th fret on the guitar. The other frets in the 5th position are the 6th, 7th, 8th, and 9th frets.

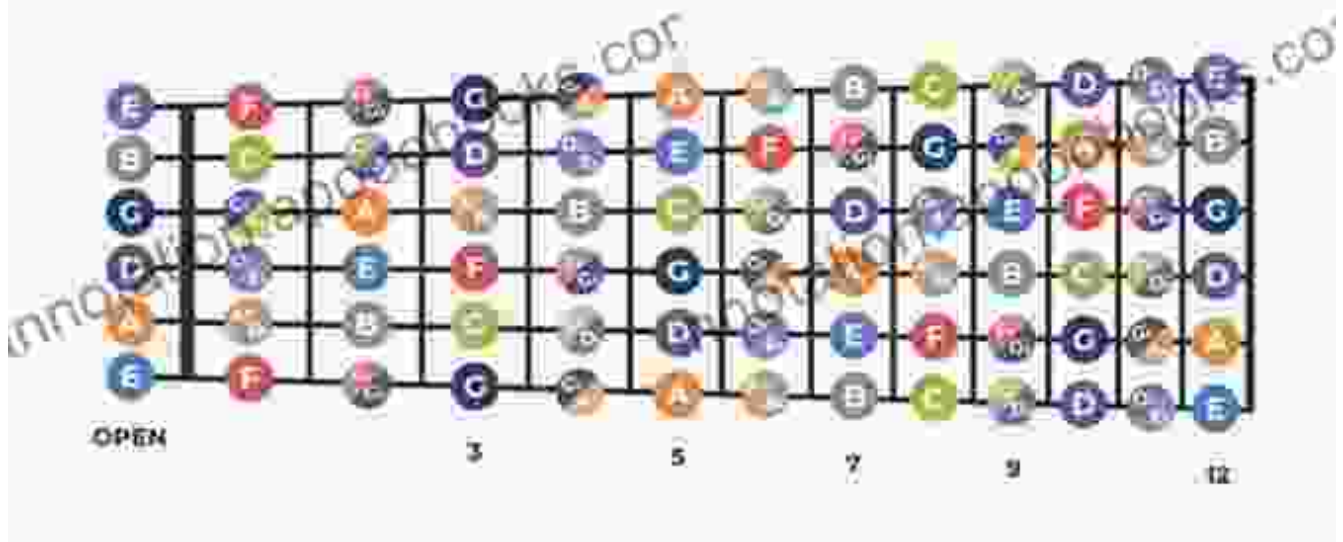

The 5th position frets are important because they allow you to play notes that are higher up on the fretboard. This can be useful for playing solos, melodies, and chords.

Step 2: Learn the Note Names

The first step to reading notes in the 5th position frets is to learn the note names. The notes in the 5th position are the same as the notes in the open position, but they are played five frets higher up.
