Getting Started

Before you start learning to fingerpick, you'll need to make sure that you have the right equipment.

Once you have your equipment, you can start learning to fingerpick. The first step is to learn the basic fingerpicking patterns.

There are three basic fingerpicking patterns:

The alternating bass pattern is the most basic fingerpicking pattern. It involves alternating between the bass strings and the treble strings with your thumb and index finger.

The Travis picking pattern is a more complex fingerpicking pattern that involves using your thumb, index finger, and middle finger to create a syncopated rhythm.
